

# TeamDX

TeamDX provides objective insights into CRM skills from voice biometrics.  
**DATA-DRIVEN TRAINING**

▪ **FAST** ▪ **ACCURATE** ▪ **ACTIONABLE**

TeamDX is software that automatically grades mission critical CRM competencies crew. Integrate into simulators or VR training tools.

- Automatically process non-verbal cues from voice communication during training.
- Objective performance data is generated for use in AAR and debriefing.
- Scientifically validated in research with military and commercial pilots.
- Supports instructors in transitioning to data-driven training and coaching.
- Securely integrates into existing simulator and virtual training systems.

Get access to TeamdDX for your simulator from \$15 per hour.
